

Cresnet® Interface to Somfy® ST50 ILT2 Motor

The CSC-ACCN is an interface designed to control one Somfy® ST50 ILT2 Motor and provides two way communication between the motor and control system over Cresnet®. In addition to two way communication, the CSC-ACCN provides power to the shade via the Cresnet network. The CSC-ACCN features local buttons that allow for setting up limits and testing of the shades without use of the control system. The CSC-ACCN can be surface mounted or mounted in a single gang electrical box using a CSC-BRKT-1G mounting bracket (sold separately).
