

## infiNET EX® Interface to Somfy® ST50 ILT2 Motor

The CSC-ACEX is an interface designed to control one Somfy® ST50 ILT2 Motor and provides two way communication between the motor and control system through infiNET EX® wireless communications technology. The CSC-ACEX features local buttons that allow for setting up limits and testing of the shades without use of the control system. In addition to controlling the shade motor, the CSC-ACEX provides power to the shade via a RJ-11 connection. The CSC-ACEX can be surface mounted or mounted in a single gang electrical box using a CSC-BRKT-1G mounting bracket (sold separately).
