

DMPS3-4K-150-C

3-Series® 4K DigitalMedia™ Presentation System 150

More information coming soon!

Ideal for single-display presentation in a small conference room, huddle room, or collaboration room, the DMPS3-4K-150C provides fully automatic operation and works seamlessly out of the box with up to four Crestron Connect It™ tabletop interfaces. The DMPS3-4K-150-C is uniquely designed to present higher native resolution sources such as 2560x1600 output from Apple® laptops, which require more bandwidth than ordinary 1080p switchers can handle. Even better, the DMPS3-4K-150-C is pre-programmed for super fast installation. Get your system up and running directly from the touch screen by answering a few simple questions. Simply select your sources and displays, and label icons.

- > 10x1 4K multi-format presentation switcher
- > Support for today's high-resolution laptops — anything up to 4096x2160
- > Provides the core of a complete Crestron Connect It™ solution
- > Four HDMI® and four VGA/analog video inputs
- > Four stereo analog audio inputs
- > Two DM® or HDBaseT® inputs
- > HDMI and DM or HDBaseT outputs
- > Built-in 4K scaler
- > Balanced stereo audio output
- > Fully automatic switching
- > Single microphone input for voice-lift
- > Display control via IR, RS-232, CEC, or Ethernet
- > Fully-programmable 3-Series® control system
- > Built-in universal power supply — no wall-warts
- > 1U rackmount or under table mount
