

DWC-EXTIR100

-40°
Cold Start

Dimensions

unit : inch (mm)

Summary

The DWC-EXTIR100 is a weather and tamper resistant infra-red (IR) illuminator for DW's MEGApix® PANO™ 6MP three-sensor panoramic bullet cameras. The accessory allows the camera to deliver high-quality monochromatic images in extreme low light environments up to 100ft (30m). The DWC-EXTIR100 is mounted directly to the camera, replacing the sunshield for easy installation. The illuminator is perfect for both indoor and outdoor installations, and can Cold Start at temperatures as low as -40°F (-40°C).

Features

- 6 high-power LEDs (3x2) 180° view IR illuminator
- Compatible with MEGApix® PANO™ 6MP IP panoramic bullet camera
- Reliable performance under any lighting conditions
- Cold Start -40°F (-40°C)
- 100ft range IR
- Integrated IR illumination mounted directly to the camera (power provided separately)
- IP66 certified weather and tamper resistant

Specifications

IMAGE	
High power LED	High power LED X 6ea (=2 X 3)
Horizontal angle	180°
IR distance	100ft
IR CONT' synchronization	EXTERNAL INPUT_HIGH => LED ON EXTERNAL INPUT_LOW => LED OFF
Supported cameras	DWC-PB6M4T - MEGApix® PANO 6MP IP bullet camera
Operating humidity	Less than 90% (non-condensing)
Power consumption	DC12V : Max 11.0W AC24V : Max 11.0W (Note: external power supply needed)
Operating temperature	-40°F ~ 122°F (-40°C ~ 50°C)
IP rating	IP66 certified weather and tamper resistant
Other certifications	FCC, CE, ROHS
Power requirements	DC12V/AC24V dual voltage
Dimensions	5.06" x 6.28" x 1.45" (128.6 x 159.6 x 39mm)
