

i3C762 PTZ Camera Joystick i3 Part# i3C762

Features

- Multifunctional
- Two-line LCD Display
- Three-Axis Control

Application & Benefits

The i3C762 PTZ Camera joystick delivers easy access to and management of all standard PTZ camera functions, including the recall of presets, alarm functions, and pan, tilt and zoom. The joystick also controls higher-level speed-dome functions, including home presets, remote resets, mini tours and privacy zones.

Unlike LED design, two-line LCD has 32 characters to display functions which make users easily understand what functions they operate. Also provides direct control over camera pan/tilt/zoom functions.
