

FC-29

IR Learner

The **FC-29** learns and stores IR (infrared) commands on a PC via a USB connection. The stored IR commands can be uploaded later to multiple room controllers.

FEATURES

- Built-in IR Receiver.
- Learns and Stores IR Commands - Stores commands on a PC running Kramer's configuration software tools.
- Powered Directly from the USB Port - No external power source needed.
- IR OUT Port - For convenient testing of learned commands.
- Ultra-Compact Pico TOOLS™ - 4 units can be rack mounted side-by-side in a 1U rack space with the optional RK-4PT rack adapter.

FC-29

TECHNICAL SPECIFICATIONS

INPUT: 1 IR receiver
OUTPUTS: 1 IR emitter on a 3.5mm mini connector
