

PT-101HDCP

DVI (HDCP) Repeater

The PT-101HDCP is a line driver/repeater for DVI-D video signals. The unit reclocks and equalizes the signal enabling multiple units to be cascaded.

FEATURES

- Max. Data Rate - 6.75Gbps (2.25Gbps per graphic channel).
- HDTV Compatible.
- HDCP Compliant.
- HDMI Support - HDMI Compressed Audio Channels.
- Kramer Equalization & re-Klocking™ Technology - Rebuilds the digital signal to travel longer distances.
- Power - AC adapter or by DVI signal.
- Range - Doubles the DVI range (resolution dependent) from approximately 16ft (4.9m) to approximately 32ft (9.8m).
- Ultra-Compact Pico TOOLS™ - 4 units can be rack mounted side-by-side in a 1U rack space with the optional RK-4PT rack adapter.

PT-101HD

TECHNICAL SPECIFICATIONS

INPUT:	1 DVI-D on a DVI-I Molex 24-pin connector, 1.2Vpp, DDC signal 5Vpp (TTL).
OUTPUT:	1 DVI-D on a DVI-I Molex 24-pin connector, 1.2Vpp, DDC signal 5Vpp (TTL).
BANDWIDTH:	6.75Gbps (2.25Gbps per graphic channel).
POWER CONSUMPTION:	5V DC, 180mA.
DIMENSIONS:	6.22cm x 5.23cm x 3.20cm (2.5" x 2.1" x 1.3") W, D, H.
WEIGHT:	0.07kg (0.16lbs) approx.
INCLUDED ACCESSORIES:	Power supply, mounting bracket.
OPTIONS:	RK-4PT 19" rack adapter.
