

RC-IR3

Compact Infrared Remote Controller

The RC-IR3 is an infrared wireless remote control unit for all Kramer IR controllable switchers. The remote can switch up to 96x96 inputs and outputs.

FEATURES

- **Memory Locations** - Stores up to 99 multiple switches as presets to be recalled and executed when needed.
- **Kramer Universal Remote** - Includes the protocols of all Kramer devices and is programmable to control any Kramer machine.
- **Non-volatile Memory** - Retains the last setting, even after the power supply is interrupted.
- **Transmits to Built -in and Remote Receivers.** - Range up to 15m (50ft) or 60m (200ft) with optional external IR receiver (C-A35M/IRR-50) and 3 extension cables.

RC-IR3
