### VIDEO WALL SOLUTIONS

ORION Images RNK Video Wall series has Immediate Benefits for Security Room, Retail, Shopping Mall, Corporation, Broadcast, Transportation, Government, Health Care, Casino and more

# RNK55SNF

ORION Images is leading the market as being an expert in control room solutions for broadcasting, telecommunications, public utilities, process control, traffic control, surveillance and command & control applications. Our LCD video wall solutions are ideal for Emergency Operations Centers, traffic and surveillance centers, and utilities and process control rooms. The RNK series is the perfect solution for displaying 1 image across multiple monitors using 1 video source up to a 10 x 10 configuration.

Digital Signage Video Wall

# Video Walls for Security, Control Rooms, Commercial AV, Professional AV & has immediate benefits for:

In addition, this solution can also be used for corporate AV and Digital Signage applications such as shopping malls, airports, stadiums, lobby signage, boardrooms, and more. Whether small lobby display or extra large video walls, the tiled RNK series makes statement. Public Display Signage receives 10 times the eye contact of static signage and is creating cost-effective opportunities to improve customer service, safety, way finding, branding, training, and communications.

Unlike plasma technology, LCD video walls require less power consumption and with auto pixel shift built in they are not subject to permanent, irreversible burn-in. Unlike individual mount LCD's that leave gaps between each monitor, tiled video walls offer more flexibility, scalability and the possibility for a higher resolution.
